**Internships**

### What do we do?

At WMO, we are dedicated to fostering international cooperation and coordination around the state and behaviour of the Earth's atmosphere, its interaction with the land and oceans, the weather and climate it produces, and the resulting distribution of water resources.

We offer a number of exciting and challenging roles, where you can bring your experience and expertise in the above areas to bear.

We also offer professional development opportunities and a positive working environment.

### How to apply

If you are interested in working with us we would like to hear from you.

All our current openings are available on the [WMO e-recruitment system](#).

To apply to a vacancy, candidates must complete their HR profile and submit their application through our e-recruitment system.

Please note that we can only accept applications made through the portal. For more information on individual job requirements, see the role posting.

We screen all applications based on the information in your e-recruitment profile. Please ensure that it is up to date and complete before sharing it with us.

Please send in your application before 12 midnight CET (Central European Time) on the closing date of the vacancy to ensure we receive it.
